

## **SAMPLE ITINERARY**

### **Bright Angel Loop 3 or 4 Day:**

Day 1 - We will pick you up from your hotel and drive to the canyon. We will hike 7 miles down to Bright Angel Campground at the bottom of the canyon, descending 4,800 feet. After setting up camp, we can go to Phantom Ranch and have some snacks or a lemonade at the canteen.

Day 2 - We hike 5 miles up Bright Angel trail to Indian Garden where we will camp the second night. Here, we can hike to Plateau point for some beautiful views of the inner gorge and the Colorado River.

Day 3 - We pack up and hike out the remaining 4.5 miles, climbing 3,000 feet in elevation over that distance.

Day 4 – We can also extend this tour to four days with a second night spent at Bright Angel Camp with a side hike to Ribbon Falls on the second day. The falls are one of the most scenic areas along the North Kaibab Trail, and the hike itself is unique because you are hiking right in the heart of the canyon.
